It is the responsibility of Driver / Entrant to keep this code confidential.

This ROTAX GLOBAL APP will communicate with the EVA Event Management system (EMS).

The EMS is the communication platform used internally by the organizer and the stewards and it will record the time that all the information / notifications will be sent to Driver / Entrant and also the time when the Driver / Entrant read the notification.

24.2 Communication flow

Stewards will send the notification or decision via EMS to the Driver / Entrant and all the registered users will get this information immediately on their mobile phone.

During driver's registration, the organizer will provide all the important information how to use the App and how to register.

At the Drivers Registration, Entrant will sign a document stating that he/she will be responsible to register in the ROTAX GLOBAL APP all the starting numbers which he/her is responsible for as an Entrant, to check with the due diligence if he is receiving any notification and to guarantee that during the event period his mobile phone is connected to the network. Driver / Entrant must register with the QR code given during the driver's administration.

In case of loss, damage or battery failure of the mobile phone, it is Entrant's responsibility to register in another mobile phone, in order to assure he/she will receive the notifications and the steward's decisions.

In the event of internet failure in the paddock area, the Entrant / Driver will be notified personally.
